915/747-5501
EL PASO, TEXAS 79968

Quarterly Report
Contract NAS 5-26326
Reporting Period - 7/1/81 to 9/30/81

Submitted to
National Aeronautics and Space Administration
Goddard Space Flight Center
Greenbelt, MD. 20771

Principal Investigators
G. R. Keller
E. G. Lidiak

Work during this period concentrated on the IAGA meeting in Edinburgh and on crustal structure and tectonic studies. A preliminary crustal structure map has been prepared and a copy is attached. A bibliography of crustal and upper mantle studies for South America has also been prepared and a copy is attached. Work on the surface wave analysis and tectonic characterizations has continued.
